Redacted Grand Portage Wild Rice QAPP final v.docx  
Appendix 1 - Sampling and Analysis SOPs for Wild Rice Sulfate Experiments.docx

Hi Chris,

As I stated in my message I am interested in forwarding this QAPP (attached) to the WR Advisory Comm. to help address questions that they have regarding the mesocosm design. I think that this QAPP will go a long way to satisfy their needs. I would like your advice on how best to proceed. Thanks!

Hi Phil,

Finally found on an e-mail from Ed. Hope there is some useful information in it for you.

## Ex. 6 - Personal Privacy

Hi Ed,

Attached are the QAPP and the SOP we prepared from the EPA funds which came through the Grand Portage Reservation. I hope these will satisfy MPCA's needs, but if anything needs to be modified, please let me know.

Cheers.

John
